**PETITION UNDER 37 C.F.R §1.8(b)**

Sir:

Applicants hereby petition that the attached Response to Communication be  
considered timely filed and be acted on by the USPTO.

01/15/2008 LLANDGRA 00000026 10518986

01 FC:1253

1020.00 DP

F8518 pet 1-8(b) {PC04 }.wpd

On March 13, 2007, the USPTO issued a Communication. On August 10, 2007 Applicants filed a Response to Communication along with the appropriate request for an extension of time. The USPTO received the Response to Communication but appears to have misplaced it after its receipt.

Under 37 C.F.R. § 1.8(b), such situation can be remedied by doing the following as delineated in 37 C.F.R. § 1.8(b)(1)-(3):

- (1) Informing the USPTO of the previous mailing or transmission of the correspondence promptly after becoming aware that the USPTO has no evidence of receipt of the correspondence;
- (2) Supplying an additional copy of the previously mailed or transmitted correspondence and certificate; and
- (3) Including a statement that attests to the previous timely mailing, transmission or submission.

Regarding (1), the present Petition informs the USPTO of the previous mailing. Applicants' attorneys became aware of the present situation within the previous two months.

Regarding (2), a copy of the previous submission (Response to Communication) is attached herewith.

Regarding (3), the Response to Communication was received by the USPTO on August 10, 2007 and enclosed is a copy of the postcard showing receipt by the USPTO on that date.

Accordingly, Applicants respectfully request that the attached Response to Communication be considered timely filed and be acted on by the USPTO.

No fees are believed due for the present Petition. However, the USPTO is hereby authorized to charge any fee(s) or fee(s) deficiency or credit any excess payment to Deposit Account No. 10-1250.

Respectfully submitted,

Jordan and Hamburg LLP

**RESPONSE TO COMMUNICATION**

Sir:

Applicants submit this Response to Communication in the above-mentioned application in response to the Communication of March 13, 2007 from the U.S. Patent and Trademark Office (USPTO).

The Communication of March 13, 2007 states that the Declaration filed in the above-identified application is defective for the following reasons: 1) Mr. Oosaki (a deceased inventor) did not sign the declaration and neither did his legal representative. The absence of the signature of the legal representative has not been properly excused. 2) The Declaration is not accompanied by a verification of the translation into the English language.

MPEP § 1893.01(e) states that the requirement for an oath or declaration in compliance with 37 C.F.R. § 1.497(a)-(b) will have been previously satisfied if a declaration in compliance with PCT Rule 4.17(iv) and executed by all the inventors was appropriately submitted during the international phase. It is Applicants' position that such a Declaration was indeed submitted during the international phase and that therefore the requirement for an oath or declaration in compliance with 37 C.F.R. § 1.497(a)-(b) has been satisfied. Accordingly, it is Applicants' position that no additional oath or declaration is required.

On August 3, 2007, Applicants' attorney, Ricardo Unikel, spoke with PCT Legal Examiner George Dombroske and explained the situation regarding the PCT Rule 4.17(iv) Declaration. Mr. Dombroske provided the following guidance:

- 1) A PCT Rule 4.17(iv) Declaration is sufficient to fulfill the requirement for an oath or declaration in the U.S. and must be submitted along with a verified English translation.
- 2) There must be some indication that the inventors knew the patent application for which they were signing the Declaration. Such indication is shown, for example, by a specific reference in the Declaration itself to the PCT application.
- 3) The USPTO can get information from the International Bureau as to whether the PCT Rule 4.17(iv) Declaration was filed.

As to 1), please find attached a PCT Rule 4.17(iv) Declaration along with a verified English translation. Such Declaration was filed during the international phase.

As to 2), attention is directed to the first page of the Declaration where there is a specific reference to PCT/JP02/11181, which is the PCT application for which the above-identified U.S. application is a national stage entry thereof.

As to 3), Applicants note that the front cover of WO 2004/007324 (the publication of PCT/JP02/11181) contains a reference to a PCT Rule 4.17(iv) Declaration. Since the USPTO can obtain the relevant information for this PCT Rule 4.17(iv) Declaration, no copy of the front cover of WO 2004/007324 is provided herewith with an English translation of the relevant portion.

In light of the above, it is Applicants' position that the requirement for the submission of an oath or declaration in the above-identified U.S. Patent Application has been fulfilled and respectfully request that notice be provided to that effect and that the above-identified U.S. Patent Application be forwarded for examination by the USPTO.

Applicants respectfully request a three month extension of time for responding to the Office Action. **The fee of \$1020.00 for the extension is provided for in the charge authorization presented in the PTO Form 2038, Credit Card Payment form, provided herewith.**

If there is any discrepancy between the fee(s) due and the fee payment authorized in the Credit Card Payment Form PTO-2038 or the Form PTO-2038 is missing or fee payment via the Form PTO-2038 cannot be processed, the USPTO

is hereby authorized to charge any fee(s) or fee(s) deficiency or credit any excess payment to Deposit Account No. 10-1250.

Respectfully submitted,
